

# NOVUS™

By Enfield Rifle Co.®

## Multi-Caliber User Optimized Silencer System

### Three Silencers - One Tax Stamp

NOVUS, the first silencer introduced by Enfield Rifle Co., is a Patent Pending game changer. This multi-caliber silencer allows the user to optimize the can for any rifle ranging from .22 up to 458 SOCOM and pistol up to .45.

Constructed from the most durable materials on the market, the Novus can be configured within minutes to fit a multitude of firearms. What does this mean for the consumer? Multiple rifles or handguns, one silencer.

The Modular Baffle Core™ technology not only allows quick caliber class configuration, but also makes it easy to clean the baffles when removed. Routine cleaning keeps the carbon build up from diminishing performance and adding weight to the can over time.

Not only does the Novus deliver superior value with its revolutionary 3-in-1 design, it also provides dB levels comparable to dedicated caliber suppressors. All in a lightweight package weighing in at only 14 ounces in its max configuration.

#### NOVUS Benefits

- Multi-Caliber
- User Configurable
- User Serviceable
- High dB reduction to length ratio
- Lightweight

#### NOVUS Compatible Mounts

- Dead Air Key-Mo
- Griffin Armament Plan A
- Q Plan B
- Silencerco ASR
- Torrent
- Yankee Hill Omega
